The Finer Details

A Remote Transformation Session takes place over Zoom and takes between 3-4 hours.

You'll fill out a questionnaire in advance telling me a bit more about you, your lifestyle, your body and your likes and dislikes.

I'll ask you to bring to the call some of your most favourite clothes, as well as any pieces you aren't sure about, (so we can work out why).

During the session I'll take you through my unique analysis process. We'll cover each element of style in turn and then bring it all together, deciding how best to use your style 'rules' in practice. We can talk about where to find the pieces you need, how to style what you already have in a different way and of course, anything else you bring to the session!

If you need my help afterwards for more focussed shopping, you can add on a Remote Personal Shop. Just ask for details.

You'll leave your session feeling excited and motivated about the tweaks and changes you're going to make. Get ready to feel super-confident and shine from within!

How To Book
